

ALMELO PRIVATE LIMITED

ACTIVE PHARMACEUTICAL INGREDIENTS

Almelo is a 40+ year old company with 3 manufacturing sites focused on novel chemistry applications for generic pharmaceuticals as well as mid to late-stage clinical assets.

Our facilities are approved by global regulatory authorities including EDQM, PMDA, WHO Geneva. We are also PSCI approved for EHS.

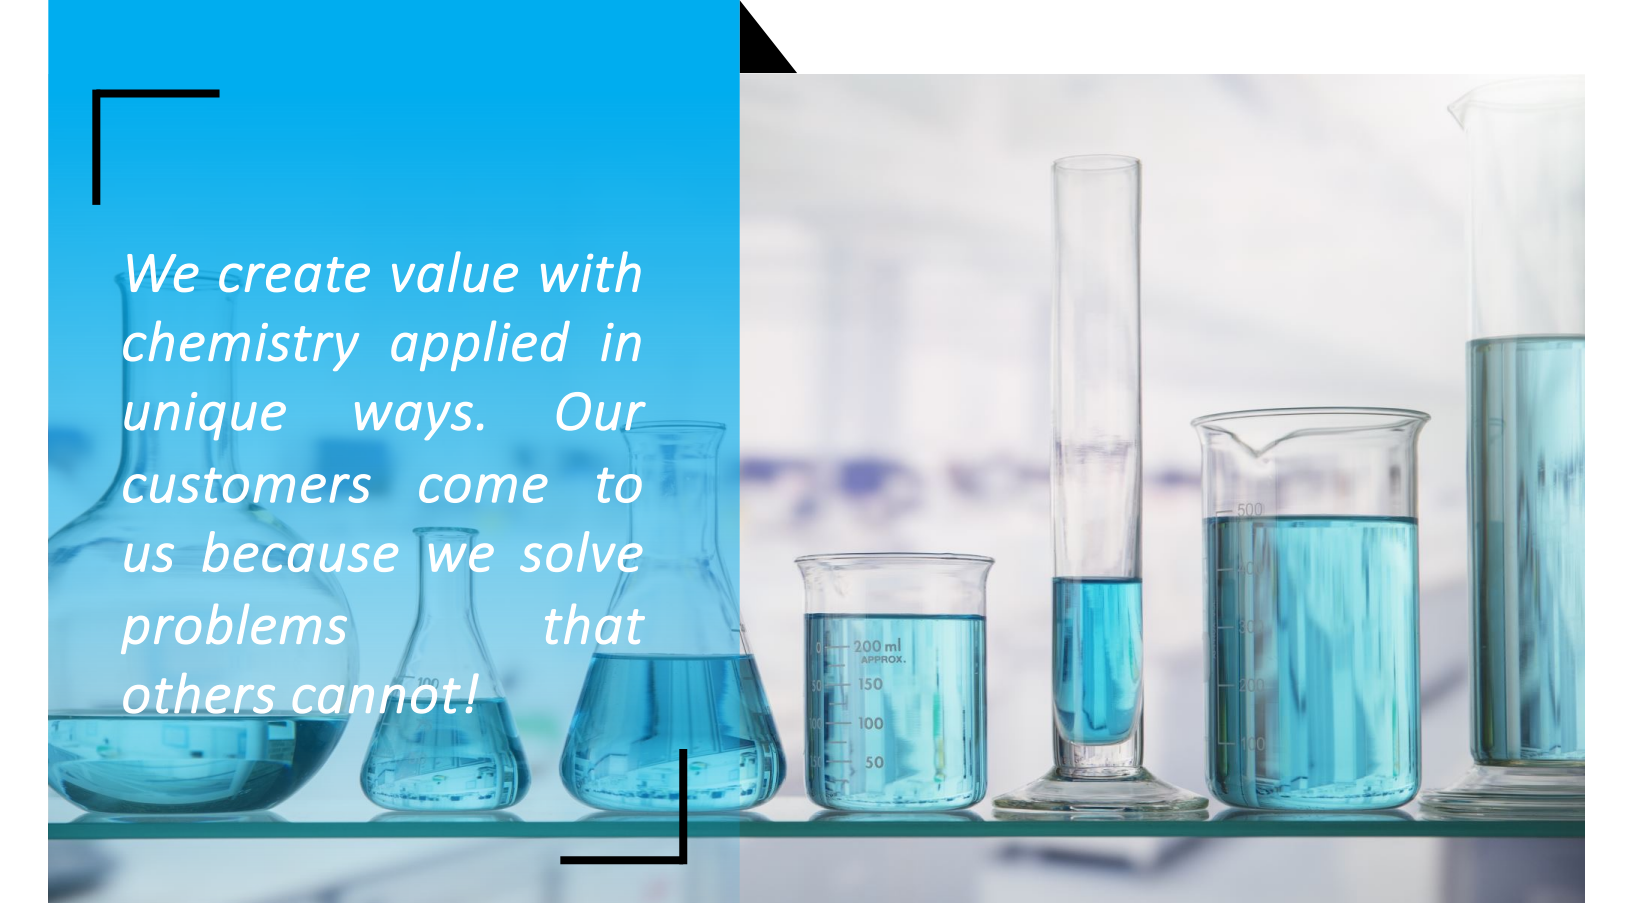

GENERIC API INTERMEDIATES

BUILDING BLOCKS & FRAGMENTS FOR NCEs

We create value with chemistry applied in unique ways. Our customers come to us because we solve problems that others cannot!

We, at Almelo, work at the intersection of creative chemistry, cost excellence, safe & sustainable operations which creates a set of unique organizational capabilities that enable us to add value to our customers.

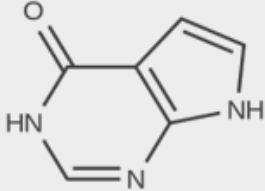

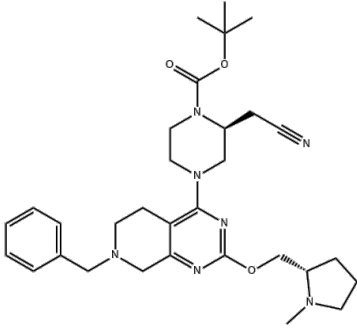

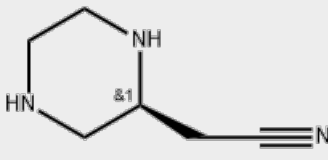

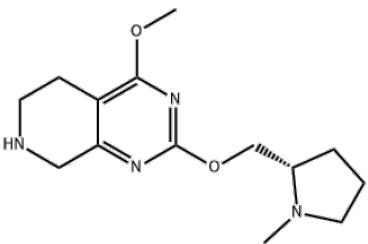

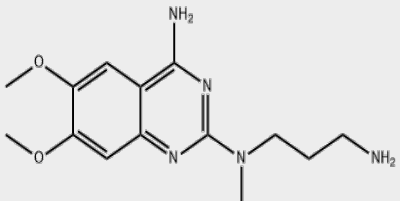

We prioritize a good conscience over compliance, which is a higher calling, and this philosophy guides our quality, environment, safety and sustainability decisions.

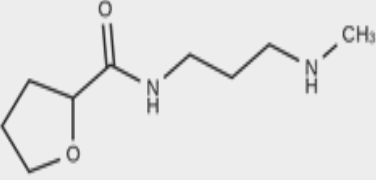

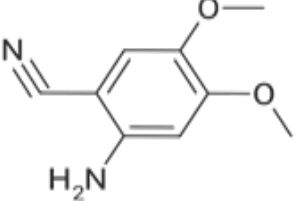

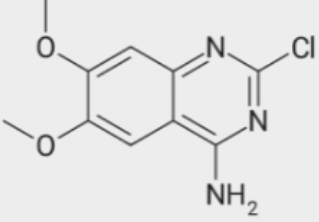

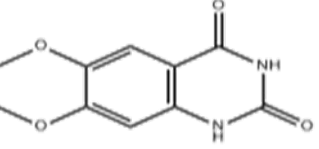

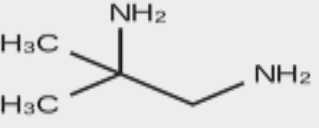

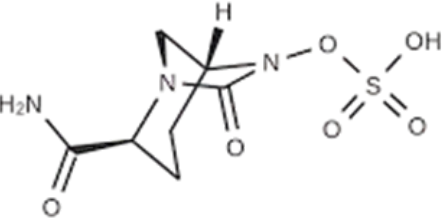

Our three business divisions – APIs, Intermediates and Custom Synthesis – have independent objectives and are equally important to us.

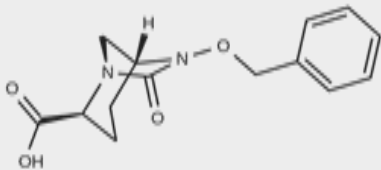

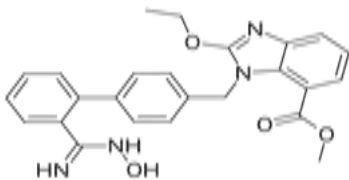

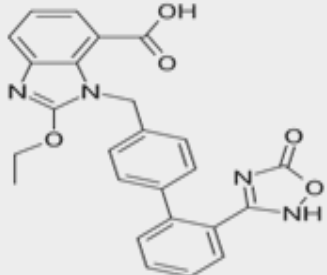

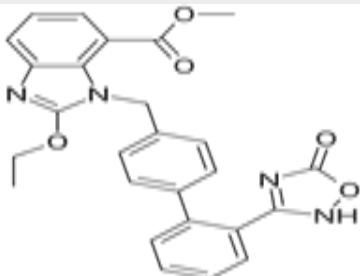

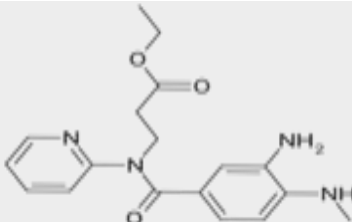

Connect with us and understand the difference in working with Almelo. We can be reached at enquiries@almelochem.com
